

Assignment- 2

Problem: C# ব্যবহার করে Area Of Circle Program লিখ।

Program:

```
using System;

class AreaofCircle
{
    static void Main(string[] args)
    {
        Console.WriteLine("Name : Osama Uddin\n");
        Console.WriteLine("Roll : 563485\n");
        Console.WriteLine("Semester : 4th\n");
        Console.WriteLine("Department : Computer Technology\n");
        Console.WriteLine("Registration : 1502133132\n");
        Console.WriteLine("Enter The Circle : ");
        double r = Convert.ToDouble(Console.ReadLine());
        double a = 3.1416 * r * r;
        Console.WriteLine ("Area Of Circle : " +a);
    }
}
```

Output:

```
Name : Osama Uddin
Roll : 563485
Semester : 4th
Department : Computer Technology
Registration : 1502133132
Enter The Circle : 34
Area Of Circle : 3631.6896
```

Comment: Console.ReadLine() ব্যবহার করে Area Of Circle Print করা হল।
